Sun Microsystems continues to bring value to the entire Education Community!

MG Program runs from now until 20th MAY 2008 and in Europe, Middle East and Africa only

Sun Microsystems is committed to helping educators use and adapt technology through our strategic programs,creating strong partnerships with Higher Education institutions. An example of this commitment, is our **Matching Grant Program** currently on offer to you. Based on Buy 1 - Get 1 Free basis, special savings are offered to academic and research labs on selected Sun products. This program runs from now until 20th MAY 2008. All equipment on the order must be part of a classroom, a student, or a research lab configuration, for student, faculty, or research desktops. Matching grants are subject to Sun's approval according to the conditions of the program (see the customer guidelines on page 5). In the product list below, you can find more information per product group by clicking on the hyperlinks. Should you wish to submit a Matching Grant Request, please contact your local Sun Sales Rep, Sun reseller or send an email to *mg08-emea@sun.com*

ULTRASPARC | AMD Opteron | solaris | Sun Fire | Java | STORAGETEK

PRODUCTS AVAILABLE IN THE MATCHING GRANT PROGRAM

→ FY08 MATCHING GRANT PROGRAM ←

Customer Guidelines and Process

07 FEBRUARY 2008 till 20 MAY 2008

* Every application is subject to final approval by Sun Microsystems, Inc.
The number of labs included may be limited due to the response to this matching grant program and there is a limited amount of equipment available for this program. **Orders will be processed on a first-come first-served basis.** Your order will be considered approved when you receive an approval number from the Sun Program Manager, and if place within 30 days after the approval date .

* Eligible hardware for this match is listed in the MG08 End-User Product List.
All equipment on the order must be part of a classroom, a student or research lab configuration, for student, faculty, orresearch desktops.
Details on the kind of student classroom or research lab must be specified under Question 2 in the MG08 Request Form.

* The match will be a 1:1 (buy one, get one free) match off of list price on the products listed in the MG08 Product List.

* Sun reserves the right to **change the MG08 Product List, to amend or modify the Matching Grant program or to terminate the entire Matching Grant program or withdraw any component of the same detailed herein at any time** during the MG Period. This means, amongst other things, that products can be taken off or added on, and price changes will be applied in the course of the program. Products can only be offered as Matching Grant to a customer, as long as they appear on the MG08 End-User Product List and at the price as indicated on this Product List.

* **Quotes are valid 30 days after quote date, and Sun Matching Grant Approval Numbers remain valid until 30 days after the approval date.** After that date, the customer can only order the products at Matching Grant conditions if the Matching Grant Program is still active and if the respective products are still on the Matching Grant Product list.

* Also note that for every Workstation bought with Matching Grant, the customer needs to buy a Sun Monitor from the MG Product List, and vice versa Sun Monitors can only be bought with Matching Grant when bought in combination with a Sun Desktop.

* **Not** included in the match are orders already placed or shipped, items on "promo" and equipment used for administrative computing, infrastructure, or personal use.

* Submissions which do not follow the process outlined will not qualify for this matching grant.

* This matching grant is available from **now until MAY 20, 2008.** This means that requests can be approved until MAY 20, 2008, and all purchase orders with a valid approval number must arrive at Sun **on or before JUNE 20, 2008 (i.e. 30 days after approval date)**

PROCESS CHECKLIST

* Contact your Sun Sales or Sun Partner Rep and work with him/her on a configuration and **fill out the MG08 Request Form**.
* Once you have agreed to the configuration and quote, your rep will submit your request and quote for evaluation and possible approval.
* If the match is approved, your rep will receive an approval number via email and forward to you, with cc to the Partner Rep, if a Partner is involved.
* The quote number and approval number must be on your purchase order.
* Cut purchase order within 30 days after the approval date and submit to Sun or Partner as usual.
